Flexible time arrangement and individual classes are also available

- Our courses are designed to encourage discussions in French right from the beginning. This is achieved through interactive lessons, topical teaching material and creative learning methods.
- At all levels, the French courses are targeted towards the development of grammatical skills, improvement of vocabulary, oral expressions, comprehension, reading and practice of the written language.
- You have the possibility to achieve personal, professional or academic goals, individualize your courses or fulfill requirements for school entrance and immerse yourself in the French language and culture.
- Whatever your choice, our approach to language learning is to make it interesting, enjoyable and effective at the same time. We also provide specific advise on international exposure to France and other French speaking countries.
- Two of the six weeks course duration are dedicated to preparing the exams for students wishing to obtain French language certificates and diplomas.
- A two hours per day course and the four hours daily intensive works for most of our students and remains the choice class for the majority.
